

***tele.net.in*** is an important online resource for news, views, analysis, trends, technology updates and interviews with prominent leaders in the telecom space. The site also provides a forum for discussion and debate and is a reliable monitor for investments, projects and deals in the telecom segment. Moreover, *tele.net.in* features several incisive articles from its print edition *tele.net* and has an extensive archive of tele.net articles since January 2005.

The aim of *tele.net.in* is to provide independent, authoritative and interactive telecom information, which is high on content quality and is put together in a manner that is useful to its users in the key segments of the telecom sector: operators; equipment manufacturers and technology providers; relevant ministries and institutions; regulatory bodies; industry associations; investment banks and analysts and enterprise customers.

Soon *tele.net.in* will be present on Twitter, Facebook and Linked and users can also avail of RSS feeds and updates via newsletters (through email).

The website is currently free for all telecom professionals, though for some sections there is a need to register.

*tele.net.in* is the online arm of *tele.net*, a monthly magazine targeted at decision makers, top management and policy makers of the telecom industry. Both are a part of India Infrastructure Publishing Private Limited, which is dedicated to providing information in areas of infrastructure through magazines, newsletters, special reports, and conferences.
